DENTAL SURGEON

In Champion Thursday  
and Friday.

## Claim Dismissed in Soil Drift Case

After a hearing which went on until one o'clock on Wednesday morning, Judge Jackson dismissed the claim of Martin Arnsdahl of Barons, against Anthony Bach of Champion for damages caused by the defendant allowing the soil of his land to drift to the land of the plaintiff.

In dismissing the claim for \$300, at which the damages were assessed, his honor held that the defendant had used the means employed in the district for dealing with soil drifting. He said, however, as advice to farmers, that more up to date methods of dealing with soil drifting became common knowledge, farmers who allowed their soil to drift to the land of neighbors may be held responsible for damages if those methods were not used.

H. Ostlund, K.C., for the plaintiff, and L.H. Stock, K.C., of Vulcan, for the defendant.—Lethbridge Herald.

## Baseball Team Going Strong

Champion had the honor of winning the Benefit Baseball Tournament, in Staveloy on Wednesday, June 13th. At 3:30 Staveloy defeated Charlesholm and at six o'clock Champion played Staveloy.

Staveloy hurled the full nine innings for Champion, striking out fifteen men. Haynes in the box for Staveloy, was belted freely by the Champions. The final score was 20-6 in favor of Champion.

On Friday, June 15 Carman visited Champion, Champion taking the game by a 8-1 score. Hargraves, one of the local High School team received for the first seven innings and made a wonderful showing for his first time with the seniors Lucia Hurler seven innings and Bester finished the game and Hubs receiving. Tishy and Wabbs were on the mound for the visitors.

Monday last, Champion returned the Carman game, winning by 11-7 score. Lucia, Bester and Bastin were used on the mound for Champion during the seven innings. The strong wind made playing very difficult.

The fielding and batting of R. Latiff has been of high commendation in all these games and throughout the season.

This makes 8 games won out of 10 played for the Champion team, which is a very good percentage. Let's hope the good work keeps up, and furnishes a real baseball treat on July 2nd.

## Too Good For Arrowwood Nine

The Champion baseball club met the Arrowwood nine on the local diamond on Wednesday evening when an interesting and close game resulted. There were many sensational plays throughout the game and J. Kulpas, third baseman for the local team handled seven putouts. Steves as the twirler went the route for Champion. The score was 5-1 in Champions favor. Following the game Mr. and Mrs. Frank Calvert entertained the club to strawberries and ice cream.

## Local & General

Service at Yotwood Thursday June 21st at 8:30 p.m.

Hard Rubber Trailer tires at small cost.—See B. Hummel.

Sat. of Democrat wheels for sale. See B. Hummel.

Mens Shorts and Combinations, summer weights at Campbells.

The front of Latiff's store received a coat of paint this week. Elliott was the painter.

D. D. Farmer's Hardware is receiving a coat of paint this week. D. Chamberlain is in charge.

Straw Hat time for Dad and the Lad—15c to 35c at Campbells.

Joe Cooper is suffering with a broken leg, the result of being kicked by the pony he rides to school.

Born — To Mr. and Mrs. Ed Larkins, on Thursday, June 14, a son.

Clark Gable Sweaters in pure White—\$1.50 each at Campbells.

Mrs. B. Anderson and Mrs. Wayne Anderson were Lethbridge visitors Tuesday.

The Ladies of the O.O.R.P. will hold a bake sale on Saturday June 30. Watch for particulars in next weeks paper.

Lost — Car Jack — Finder please leave at Chronicle office. Reward.

The sign is still out at the Smith mine re lump coal at \$2.50 per ton.

W. S. Ryan of Warner returned on Wednesday from an extended trip at Ontario points.

Mrs. A. Vanbesien is a patient in the Vulcan hospital.

Frank Smith is a patient in the Carmanagay hospital.

Raspberries right at their peak now. Wonderful fruit prices right at Campbells.

Mrs. McMath has as her guest her daughter, Miss McMath of Regina.

Friends of G. Davis will be pleased to know that he has returned sufficiently to return to his home.

Miss Rheta Campbell expects to leave for Edmonton during the first week in July to attend summer school.

Pretty Vail Dresses at \$145 each and White Kid Shoes for \$2.85 pair at Campbells.

The cistern at the fire hall has been completely overhauled with A. Renaldi in charge.

Among those attending the Elks convention held in Calgary this week were J. M. Moffatt and W. R. McRae.

Miss Elsie McLean has accepted a position with the Long Coulee S.D., her duties to com in September.

L. N. Warren and family and John Cook were among the many from Champion who attended the circus held in Lethbridge on Thursday.

Mr. Thomas Nelson of Pasadena, Calif., is visiting his son, A.D. Nelson.

Mr. and Mrs. J. Long are receiving congratulations on the birth of a daughter, at the Vulcan hospital, on Saturday, June 16th.

Miss Agnes Vaag underwent an operation for appendicitis at the Vulcan hospital, on Monday. Her condition is favorable.

Born — To Mr. and Mrs. J. D. Donald, at Mrs. Spear's nursing home Vulcan, on Monday, June 11, a daughter.

## Champion Theatre

Wednesday, June 27th

## HELL BELOW

With Walter Montgomery, Walter Huston, Jimmy Durante and Madge Evans.

Men Under the Sea, Submarines

Smashing the screen with its newest thrills! Here is "Hell Divers," of the sea in drama never before shown on the talking screen!

A picture of super men, laughing through thrill-packed lives. Many months in secret production, it will startle and amaze the world!

Wed. June 27th

Show at 8.30

## Long Louie Cafe

The Best Place in Town to Eat

With the approach of the busy season we are prepared to cater to farmers and others with quick courteous service

- - - We Appreciate Your Patronage - - -

Cigars, Cigarettes, Tobaccos, Soft Drinks, All Kinds of Fruit in Season, Ice Cream the Year Round, etc.

## Local & General

How is your Radiator? We have installed the most up-to-date equipment available for cleaning Radiators. If your motor heats see Granlin motors.

K. R. McLean, I.O., of McLean & Anderson, Sight Specialist of 224-8th Ave. West, Calgary, will make his monthly visit to Champion, Friday June 20th, at the Drug Store.

Leave your Watch and Clock repairs at Frank Sisson's. All work guaranteed.—P. H. Diech.

At a regular meeting of the B'nai B'rith School Board held Saturday, their present teacher, Miss Rheta Campbell, was required for the next term, at an increase in salary. Tenders were for the painting of the school building and improvement on grounds, which will include the planting of trees.

Miss L. Clarkson expects to leave at the end of the school year for Edmonton, where she will assist in the correction of examination papers.

Several from town journeyed to Lethbridge Tuesday, to be present at the ball game between the House of David team and Lethbridge Miners.

Miss Doris Reher, who has completed her training in the General Hospital, Calgary, returned to her home this week and is now in charge of Mrs. J. Long, who is a patient in the Vulcan hospital.

A dinner party was held Sunday at the home of Mr. and Mrs. Howard Smith Jr. of Staveloy, when they entertained in honor of Mr. Howard Smith Jr., the occasion being Father's Day and also Mr. Smith's birthday. Guests present included Mr. Smith's sons, their wives and families.

## Card of Thanks

Guy Dawke wishes to extend his thanks to his many friends for kindnesses shown while in the hospital also for the beautiful bouquets of flowers.

E. Siler, H. McNaughton, E. Ashmore and N. Burke returned this week from a 2400 mile trip through the Cariboo country. They visited the region where gold is being panned and all felt a desire to try their hand at this. They also saw plenty of wild game on their travels.

Crop conditions have improved considerably since the rain. Wheat fields, that were patchy, have filled out and are showing good color. Several fields of early sown grain are heading, heads being large and filling well. The grasshopper menace is well under control due to extensive poisoning. Summerfallowing practically completed. Pastures and gardens showing great improvement following rain.

Mrs. J. Meekle and daughter Anna left for Calgary where Mrs. Meekle will undergo an operation for gonorrhea this week. Mrs. Meekle is a sister of Mrs. E. Williamson.

Miss Jean Anderson of Calgary, who will fill the vacancy in the public grades of the Champion Consolidated S.D. for next term, was a Champion visitor over the week end.

Mrs. F. Alcock a pioneer resident of Champion who has been very active in Women's Institute and community affairs celebrated her 70th birthday on Monday, when a number of ladies called at her home to tender their felicitations.

## ORANGE PEKOE BLEND

## War Debt Revision Looms

Great Britain's action in deferring payment of the \$261,740,000 instalment due the United States on June 15, has thrown the whole war debt problem again prominently into the field of international controversy. It poses the United States government with the inescapable necessity of initiating discussions preliminary to a complete review of the war debt situation. It forces a showdown.

Great Britain, of course, will not be satisfied with a mere review. It wants revision of the terms of settlement—revision drastically downward. It wants as much consideration from its creditor, as it (its creditor) has given its debtors. At the very worst, it seeks as generous treatment, on principal and interest, as was given France and other countries by the United States.

In failing to make even a so-called "token" payment on the instalment due June 15, Great Britain informed the United States that the terms of the agreement between the two countries in respect of war debts imposed "a burden which was both unreasonable and inequitable in relation to other countries." The facts justify this statement. Whether intentionally or not, Britain has been adversely discriminated against.

Great Britain, according to the records, borrowed \$4,277,000,000 from the United States, a large per centage of which was not for its own use, but on behalf of allied countries during the war. The money was spent in the United States for war materials with the real foundation of the extremely high wages paid munition workers in that country during the war. Since the Baldwin agreement which fixed the terms and conditions of repaying the war loans, Great Britain has made instalment payments aggregating \$2,028,000,000. Because of the high comparative interest rate paid by Britain, however, London is still indebted to Washington in the sum of \$4,173,740,000. That is to say, after paying back more than two billion dollars, Britain still owes more than the original debt.

Obviously, the situation clamors for reasonable adjustment from that aspect alone. There are other, equally cogent, reasons why revision should be made. There are irrefutable arguments why the debt problem should be solved finally and amicably. That war debts are the most vexatious of international controversies, cropping up periodically to stir prejudices and animosities, is a reflection upon the intelligence of the two great English-speaking nations towards which the world looks for preservation of concord among the countries of the world.

Great Britain's agreement to pay instalments in the amount of approximately \$262,000,000 was predicated, in the first place, upon expectations of a similar amount being paid by France and other European countries in respect of war debts due London. Britain lent more than she borrowed. In order to avoid financial and economic chaos, however, the British government decided to suspend all claims against debtor nations for payments on war debts, and take the position now again, if it must, pay the United States in full. It must exact payment of a corresponding amount for its own war debtors. The position is quite understandable—and undoubtedly reasonable.

"Such procedure," said the British note to Washington, "would throw a bombshell into the European arena which would have financial and economic repercussions over all five continents, and would postpone indefinitely the chances of world recovery."

Consequently, British policy suggests the United States should do its bit "to aid world recovery by recognizing the realities of the situation and revising present agreements on a payable basis."

The question is not that Great Britain is anxious to escape payment of its indebtedness. Suggestions have emanated from London, from time to time, for liquidation of the entire obligation by lump sum payment. Washington has not viewed this suggestion favorably, heretofore. In fact, an intransigent position has been taken by some of the most vocal of importers and legislators who take the "pound of flesh" viewpoint. Furthermore, Britain's failure to make even a payment on account—the "token" payments such as were made in June and December 1933—has been attributed to the Johnson Act, passed this year, which specified that any nation not making payment in full on the due date, would be considered as in default.

The British note is couched in language which the people of Western Canada will appreciate and approve. It strikes a nasty note of independence and forthrightness. While declaring payment would be deferred until "it becomes possible to discuss a ultimate settlement of inter-governmental war debts with a reasonable prospect of agreement" the note asserts the British government has no intention of repudiating its obligations.

## Japanese Trade Invasion

New Penetrating Traditional United States Markets. Japan's steady successful invasion of traditional United States export markets was disclosed in the department of commerce annual world economic review for 1934. The report showed larger Japanese shipments of competitive articles to the United States, big export to Latin America, a Japanese victory over American manufacturers in the battle for the Philippine textile trade, and increasing trade in Europe, Africa and elsewhere.

Grandma was helping Peggy make out a list of little gifts for her holiday party.

"How about the Morton twins?" Grandma asked.

"Well, there's no need to ask them," Peggy answered, "they're 'tactful' alike."

## Few People Escape Attacks Of Summer Complaint

Summer Complaint may be slight, or it may be serious, but you can't tell when it seizes you how it may end.

Allow the profuse diarrhoea, the vomiting and purging to continue, for a day or two, and you may become seriously prostrated.

Just as soon as you feel any looseness of the bowels go at once to your drugstore and get a bottle of Dr. F. C. Fowler's Strawberry and Vanilla Laxative. It is the only laxative that checks this unnatural action before the weakening looseness can get started.

Don't experiment. Get "Dr. Fowler's." It has been on the market for 88 years.

## Making China Sea Safe

## Marine Department Continues Work To Provide Guidance For Ships

Typophones do not tell the whole story of the China Sea. Fog may assail the shipping, and the Chinese coast at almost any time, and storms independent of the typhoon are feared. The coast itself is dangerous, and the nets of its tides as treacherous as any in the world. Casual incidents and shoals demand the utmost vigilance and the seaworthy man Chinese junks are no mean masters of the ancient craft of navigation.

The lighting of the China coast is not a century old. The National Lighthouse Service was founded about the middle of the nineteenth century by Sir Robert Hart, who was authorized by the government of the day to establish a system of lighting for the benefit of navigation. Sir Robert possessed himself of a few qualified experts, and he and his handful of forces set to work to establish a service which, in the Chinese Maritime Customs, now provides guidance not only to ships at sea but to the country craft navigating the waters of China and in particular the Yangtze.

The remembrance of the Marine Department of the Chinese Maritime Customs has yet to be written. This organization, originated by Sir Robert Hart and his devoted helpers, has developed unobtrusively, and its traditions and efficiency have been maintained by successive inspectors-general.

For the last five years or so bandits have waylaid the staff engaged in making out channels for the navigation of the Yangtze. They have removed beacons and buoys—which have been promptly restored—and have subjected the Customs' bandits to such a treatment of malignance that those craft now have to be protected by metal plates and shut up like sardine tins. They have removed beacons and buoys—which have been promptly restored—and have subjected the Customs' bandits to such a treatment of malignance that those craft now have to be protected by metal plates and shut up like sardine tins. They have removed beacons and buoys—which have been promptly restored—and have subjected the Customs' bandits to such a treatment of malignance that those craft now have to be protected by metal plates and shut up like sardine tins.

But the work proceeds, the Tugboat Lake has been lately surveyed. Improved marks have been established and the River Inspectorate has given the store of knowledge and added to the river police in thousands of miles.

## Flag Made By Prisoners

## Union Jack Secured War In German Camp During War

Made in a German camp during the World War, a British Union Jack was recently acquired by a prisoner in Manchester, England. Ex-Petty Officer James Allen, who brought the flag home, said it was made by prisoners in Sprottau, Silesia. "A Russian, who was allowed out," he said, "used to smuggle the cloth into the camp. One time, and in the tailor's shop another Russian secretly made it up to the instructions of the British. We produced the flag for the first time in the British prisoners, and in all it was used on 21 such occasions. Only once did the Germans show any objection. The flag was drying on the wall, and when an inspecting general saw it he stopped, snarled, 'Shew-hands', and passed on. Each member of his staff likewise."

## Animals As Witnesses

## Were Used In Sardinia Until Few Years Ago

Animals were used as court witnesses in Sardinia up to a few years ago. When a solitary householder killed an alleged burglar he was brought to trial and made to swear that the homicide was justifiable. The oath was taken before one of the dogs, cats or birds that witnessed the killing. If the animal did not manifest some contradictory sign the prisoner was set free.

## Bored On Life Range

Col. John Hopkin, a famous rifleman who is well known to Canadian and other overseas marksmen who have competed at Bileby, was buried in a casket with his expressed wish, at the firing point of the 1,500 yards range on his own estate, in Hertfordshire. He had competed at Bileby Empire meet for 36 years. nosquitos.

## Are Unknown Specimens

Three crane flies, collected by King Leopold of Belgium, were received at Amberst College for classification by Dr. Charles A. Adams, professor of entomology. The flies, unknown specimens of Tipulidae, are long-legged and slender, resembling

Ten's became a sport more than 700 years ago, but in its beginning it was an indoor game and has been "down town" only since 1874.

## Zoo Fatality

## Lions In Cage Kill Victim As Horrified Spectators Watch

While a crowd of horrified spectators looked on, four lions in a pen at Whinlaid, Ont., killed a 20-year-old man who had gone into their pen to recover a victim's hat.

The owner of the hat and several other persons who tried to save the victim, Stanley Lewis Stenson, were driven back by the lions, two of which were eventually killed by keepers before they could recover Stenson's body.

Stenson, employed in the catering department of the zoo, apparently decided suddenly to attempt to retrieve the hat and went into the enclosure between the outer barrier and the railing surrounding the pit in which the lions are kept.

As he crawled along the top of the inside railing two of the lions reached through the bars and began mauling him.

Stenson was unable to get away from the lion claws and several spectators tried to reach the place to try to pull him away, but were not successful as the two other lions joined in the attack through the bars.

Stenson then fell into the pit, striking his head on the concrete about 45 feet below. The lions dragged him further into the pit and killed him as the horrified spectators screamed and several women fainted. The keepers had to shoot two of the lions before they were able to drive the others into their cages at the far end of the pit.

## Recipes For This Week

(By Betty Barclay)

## HOT MILK SPONGE CAKE

- 1 cup sifted cake flour
- 1 teaspoon combination baking powder
- 1/2 teaspoon salt
- 2 eggs
- 1 cup sugar
- 2 teaspoons lemon juice
- 6 tablespoons hot milk

Sift flour once, measure, add baking powder, salt, and sift together three times. Beat eggs with very thick light and nearly white (10 minutes). Add sugar gradually, beating constantly. Add lemon juice. Fold in flour, a small amount at a time. Add milk, mixing quickly until batter is smooth. Turn at once into ungreased tube pan and bake in moderate oven (350 degrees F.) 35 minutes, or until done. Remove from oven and invert pan 1 hour, or until cold.

This mixture may be baked in two twenty minute cakes, or in a moderate oven (350 degrees F.) 25 minutes; or in 12x8x3 inch loaf pan in moderate oven (350 degrees F.) 30 minutes. Or turn mixture in 50 small cup cake pans, which have been greased very lightly on bottoms, and bake in moderate oven (350 degrees F.) 20 minutes, or until done.

## PEANUT BUTTER HERMITS

- 1 cup sweetened condensed milk
- 6 tablespoons peanut butter
- 1/2 teaspoon salt
- 1/2 cup Graham cracker crumbs.

Thoroughly blend together the sweetened condensed milk and peanut butter. Add salt and Graham cracker crumbs. Mix well. Drop by spoonfuls on a buttered baking sheet. Bake fifteen minutes, or until brown, in a moderately hot oven (375 degrees F.). This recipe makes 1 1/2 dozen.

## Girl Castaway—Good Heavens!

Canimah!—Now, now, don't get in a stew.

## THE DEPRESSED FEELING IS LARGELY LIVER

## Wake up your Liver

You are "feeling poor" simply because your liver is sluggish. It is the liver that filters out of your blood the poisons and impurities that cause the depressed feeling. It is the liver that filters out of your blood the poisons and impurities that cause the depressed feeling. It is the liver that filters out of your blood the poisons and impurities that cause the depressed feeling.

## Test Route To Arctic Ports

## Hudson's Bay Company Plans To Ship Supplies From Edmonton

Testing out the Mackenzie river route, the Hudson's Bay Company will ship 500 tons of supplies from Edmonton this season for its posts in the western Arctic region, according to G. G. Reid, manager of the H.B. transport department for the north.

The shipments will be moved as early as possible to the Mackenzie river to Tuktoyaktuk harbor, on the Arctic coast, east of Alkavik.

At that point, the supplies will be loaded on a distributing vessel to be carried to posts in the Cambridge bay, King William island and other parts of the western Arctic.

It is planned to start the distributing vessel on this trip by August 1, so as to give time to complete its Arctic voyage and return to port before freeze-up.

From the standpoint of Edmonton and the Mackenzie route, this year's experiments are of importance as successful results will mean that in future the supplies will be moved more directly from this city.

Several years ago the steamer Baychino was frozen in and abandoned on the coast, leaving the season's supplies for northern posts bound by way of the Pacific and Bering strait to the Arctic ocean.

## Native Son Of Jutland

## Danes Set Up Memorial Stone To Shakespeare's Hamlet

The Danes of Jutland have made claim for their position—that they claim Shakespeare's hero Hamlet as a native son of Jutland—by setting up a memorial stone on the battlefield where Hamlet is said to have fallen. The stone is a hot-keeper in the battlefields in eastern Denmark, labelled a local game Hamlet's to the distress of those who know their ancient history. Denmark's oldest historian, who lived about 1200 A.D., declared that Hamlet was a native of Jutland, king-fell in battle on Ammelboe, or Hamlet's Heath, and was buried somewhere on the field.

The stone has been placed on a Viking mound in the field, though it is emphasized that the exact spot where the king was buried is entirely unknown. An excavation of the Viking mound failed to reveal any sign of burial. The inscription on the stone is translated as follows:

"Amiel, wisest of all in Viking days, played the fool until the hour of revenge. Hailed as king by the Jutes, he rules on Ammel Heide."

## Working To Lift Debt

## Farmer Members In Prairie Town Show Loyalty To Church

An illustration of the grip of the Church upon the loyalties of the people of the prairie Canada was shown in a news item from a Saskatchewan hamlet.

There is a debt on this church of \$2,000 which has been placed on it which to pay it off. But the church and its farmer supporters have decided to see what can be done. The church has obtained temporary possession of 50 acres of land in the territory it serves and this has been used to wheat, farmers sipping the seed and performing the labor.

What cash proceeds this wheat will yield will be applied on the church debt. And all the farmer members and adherents of the church will not saddle a certain portion of their own lands as a "church debt" area. These tracts have been seeded, and what is realized will be turned over to the church—Regina Leader-Post.

## Feels 50 Lbs. Slimmer

## After Losing Only 5 lbs.

"I started taking Kruschen Salts a month ago," a young woman writes. "I have lost 50 lbs. and I feel as if I have lost 50 lbs. I am full of life, whereas before I was listless and worried over little things. But if my troubles were doubled, they would not worry me today, thanks to Kruschen." (Miss) V. P. Her mother says she has lost 50 lbs.—take one-half teaspoon of Kruschen salts in a glass of hot water before breakfast.

Be sure and do this every morning, for it's the daily dose that takes off the fat. When you take Kruschen daily it makes every particle of material which will make kidneys, stomach and bowels are tuned up, and the pure, fresh blood containing these salts is carried to every part of the body. Then follows that Kruschen health, vigor, energy, health and activity that is reflected in bright eyes, clear skin, cheerful vivacity and charming figure.

Modify your diet, and take gentle exercise. The stomach, liver, kidneys and bowels are tuned up, and the pure, fresh blood containing these salts is carried to every part of the body. Then follows that Kruschen health, vigor, energy, health and activity that is reflected in bright eyes, clear skin, cheerful vivacity and charming figure.

## Invents New Material

## Belgian Major Says It Will Make Airplanes Fireproof

Major Van de Bollen of the Belgian Air Force declares he has invented a material which will make airplanes fireproof. Plates of asbestos are soaked in three chemical baths and then baked at high temperatures. Tests were made recently near Brussels. To demonstrate its value documents were put into two boxes made of this material. One box was plunged into a blazing fire for a quarter of an hour. The papers received no injury whatever. A miniature motor-propeller was placed in the box in the cabin never rose above 74 degrees.

Major Van de Bollen of the Belgian Air Force declares he has invented a material which will make airplanes fireproof. Plates of asbestos are soaked in three chemical baths and then baked at high temperatures. Tests were made recently near Brussels. To demonstrate its value documents were put into two boxes made of this material. One box was plunged into a blazing fire for a quarter of an hour. The papers received no injury whatever. A miniature motor-propeller was placed in the box in the cabin never rose above 74 degrees.
